# WHY COME THROUGH TECHGENIC

At Techgenic you will find **experienced and trusted IT Specialists** specialising across the financial industry in Mauritius.

Having implemented and customised these solutions **seamlessly integrating solutions via API** for local companies specialising in anti-money laundering and combatting the financing of terrorism, it is **our attention to the small details**, scheduling of timelines and keen project management that makes us stand out from the rest.

We understand **your data is the most valuable asset** and we will help you setup your solution **in a safe and secure way**, you understand and are comfortable with.

It's not only about buying a solution, **it's about building an IT Ecosystem** for the software that integrates with your existing infrastructure while ensuring your business and data are cyber-safe.

Getting ready for a migration of any size can be daunting, not only will **we assist you** in a smooth transition, **we can provide IT services across Support, Cloud, Security & Compliance, Consultancy and Projects** as well as IT Procurement.

You want results. Built over a cumulative period of more than 100 years of experience, Techgenic will **never assign second-tier support** staff to any account. We have found that the best way to get them is with **up front support and people**. Only after we fully understand you and your business, do we recommend a plan of migration.
